

entt::sparse_set::construct

entt::storage::insert

entt::sparse_set::insert

```
graph LR; A[entt::sparse_set::construct] --> C[entt::sparse_set::insert]; B[entt::storage::insert] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes with black borders contain the function names 'entt::sparse_set::construct' (top) and 'entt::storage::insert' (bottom). On the right, a gray rectangular box with a black border contains the function name 'entt::sparse_set::insert'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'entt::sparse_set::construct' and 'entt::storage::insert' are related to or depend on 'entt::sparse_set::insert'.
